I have also been acting in many commercials and in some small roles in other tv-series and movies from the beging of 90`s.

Improvisation:

Last six years I have worked with improvisation with focus on long form, full-length plays. I have co-founded Vendetta, a feminist improvisational theatre, with which she created several feminist plays that interrogated female roles and female representation in society.

Voice work:

I have also worked as voice talent and done several voice-overs, dubbing cartoons and read audio-books from the beginning of the 90's.

Education:

I have graduated from the Academy of Arts of Turku in 2008, the main subjects being theater acting and circus arts.

Before that I have studied acting in the Kymenlaakso Institute in 2002-2003 and in the New Circus Training Centre Salpaus in 2001-2002.

I have matriculated in 2001 from the Sibelius High School, in Helsinki, specialized in dancing.
